

Meeting number 2 – Athens april 2010

I just put some pictures giving an overview of our meeting, nice people in a very serious atmosphere. We worked quite a lot.

Corsican girls telling about their job.

Me discovering in reality where our Greek partners were working.

Of course discovering the situation of migrants creating companies was our target. We have had for instance a very pleasant and interesting talk with a woman who has created a sewing company. She works hard

Here are some pictures of our team

Next step, Corsica...

Best regards to all Cédric
