

*Hervé's learning diary*  
Belgium  
25<sup>th</sup>- 28<sup>th</sup> of November 2010

Main objective was about Immigrant's business plan.

When you stay in your native country, it is never easy to keep open mind to understand the impact of different culture and level life cross Europe. When politic's decide to open border cross Europe for economic reason and business, what about people?

How to let everyone getting any chance to develop themselves and take benefit to this new model life?

How to help them to create their own business with real chance to succeed? How to help them with respect to native people current issue?

Thanks to everyone who attend these meeting to give me the opportunity to spend a few hours to listen and discovering that migration cross Europe is a real chance for all country members if we agree to listen everyone needs and never think that there is only one basic solution.

Hervé...
