

Immigrants business plan – Paris 2009

First evening, welcoming all the partners,

October 2009

- It was a nice evening and a first time with this group, I use to find it nice and interesting to meeting them all. Here is a partner from Germany. Le Petit Boffinger is a special place in Paris, a Brasserie full of history...
- The project dealing with creation of companies by migrants in Paris, was impossible to understand without making a round around Paris, Rue du Fbg Saint Denis, Passage Brady, Little India, around la Mairie from the 10th Arrondissement. Just discovering and realizing that people creating busing in Paris are often living in the same area. Those from Africa, those from India, Pakistan, china, Turquie, Here is the way the organize their business. At least very easy to understand but always

We used to learn quite a lot about each others, i guess time partners will be able to put some more input in our project. I am willing to meeting them soon in Athen in february.....

Cédric
