

Learner's diary IBP Leonardo Partnership

Meeting 5 in Karlsruhe, 24th to 27th March 2011

During this meeting we could bring two of our projects together: The Immigrant's Business Plan and womanactivity (Grundtvig Learning partnership). It was interesting bringing both project groups together and exchanging experiences. We talked about founder personalities and methods to evaluate key competences.

The development of our guideline took up a lot of time: Every organization came with three texts to the meeting. With the method world café we wanted to discuss the texts and make suggestions. But after half an hour it was obvious that our texts were too different and we decided to stay in small groups and work intensively on our chapters. Everybody got recommendations for improvement and we fixed a deadline for finalizing the texts. In the plenum we discussed all together our results and agreed on a common design.

On Saturday our hosts from Initial organized a press conference. Unfortunately all invited journalists canceled the appointment due to regional elections.
