

Immigrants Business Plan: Tübingen, June 2nd – 5th 2011

The last project meeting was mainly dedicated to the IBP project finalization: work on the deliverables and final report.

However, we did have interesting inputs on migrant business founder's situations in Czech Republic and in Germany as well as a workshop on marginalized business founders. Although the latter was interesting, we talk mainly about franchise which often appeared as not suitable for our target groups within the project.

The visit to "Startnetz Reutlingen" enabled us, among other things, to discuss with a Greek business founder whose company is a travel agency mainly for Greeks (2nd, 3rd generation) who live in the Bade-Wurtemberg region and willing to discover Greece.
